On Jan. 17, 1972, during some of the darkest days of the Vietnam War, an American soldier walked out of the jungle and onto an isolated US Army firebase in the Central Highlands. The stranger had no identification, was in good health and otherwise seemed normal. But there was a problem. While the stranger said his name was Daniel Carson, he could remember almost nothing else. Quiet and reserved, he could not explain where he came from or why he had mysteriously shown up on Firebase Martha. Attempts by the base commander to confirm Daniel's identity turned up even more odd details. Battalion reported that a soldier named Daniel Carson and fitting the description provided by the commander had been Killed In Action the week before. Who was Daniel? Was he a deserter? A faker? A lunatic? Or was he something altogether different? Was he a lucky charm or a savior sent to rescue the unfortunate soldiers on Firebase Martha? The answers to these questions are not revealed until 1976 when three survivors from the firebase meet after the war in a bar in Washington, D.C. and agree spontaneously to visit Daniel's parents in nearby suburban Virginia. What they find shakes them to the core.
