The Complete Private Pilot (The Complete Pilot series) Bob Gardner

Taking and passing an FAA Knowledge Exam is required for earning the Private Pilot, Sport Pilot, and Recreational Pilot certificates. Using the FAA exam as the premise for learning, Gardner applies practical information so readers are not only prepared for the tests, but also for the cockpit. He augments the required aeronautical knowledge by giving specific tips and techniques, checklists, mnemonic devices, and sound advice from personal experience. A full-color foldout example of a sectional chart is provided inside the back cover for use with the numerous interactive exercises throughout the book. Each chapter concludes with sample FAA Knowledge Exam questions. A comprehensive glossary and index are included as well. This practical application of the FAA Knowledge Exam is not available in any other text!

Included throughout the book are internet links for useful aviation websites, weather charts, flight planning, etc., with a section showing examples of online weather sources and more. Also included is information on "FITS" (FAA/Industry Training Standards), scenario-based training, single-pilot resource management, and learner-centered grading. This is a convenient, comprehensive source for this information—everything complete in one book!

With Gardner's approachable yet concise writing style, readers are able to quickly grasp the subjects, pass the required tests and checkrides, and gain an operational understanding of flight they can take straight to the cockpit.

The Complete Private Pilot works as a companion textbook to ASA's *Private Pilot Virtual Test Prep DVD* Ground School. An integrated Flight/Ground Syllabus for both Part 141 and 61 programs is also available to accompany the textbook. Foreword by Richard Taylor.

John Minnis:

In this time globalization it is important to someone to acquire information. The information will make someone to understand the condition of the world. The fitness of the world makes the information much easier to share. You can find a lot of recommendations to get information example: internet, classifieds, book, and soon. You can view that now, a lot of publisher in which print many kinds of book. The particular book that recommended for you is The Complete Private Pilot (The Complete Pilot series) this reserve consist a lot of the information from the condition of this world now. This book was represented so why is the world has grown up. The words styles that writer use to explain it is easy to understand. The writer made some analysis when he makes this book. This is why this book appropriate all of you.

Maria Swensen:

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library or even make summary for some e-book, they are complained. Just little students that has reading's spirit or real their pastime. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading really. Any students feel that examining is not important, boring and also can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this The Complete Private Pilot (The Complete Pilot series) can make you sense more interested to read.
