Dragon city is a Facebook game where you can breed your own dragons. The main point of the game is breed as many dragons as you can so that you can earn gold and use that gold to get food to level up your dragons.

When put it terms like that, it seems very robotic but the game is actually quite fun! The joy you get from breeding your own dragon, leveling it up and fighting with it is amazing. It gets frustrating at times, but it is well worth it in the end. The dragons become your “pets.” Of course everyone has different preferences and likes different dragons and, so, there is a lot of room for personalization.

This guide is not only going to help guide you through your first steps in the Dragon City world, but it will also help you to discover your own unique style of play and your own dragon preferences. Since breeding is such a hassle, this guide will also give you a comprehensive guide to breeding dragons so that you can maximize your chances of breeding the dragons YOU want!
