# Doing Math with Python: Use Programming to Explore Algebra, Statistics, Calculus, and More!

Amit Saha

**Doing Math with Python: Use Programming to Explore Algebra, Statistics, Calculus, and More!** Amit Saha

*Doing Math with Python* shows you how to use Python to delve into high school—level math topics like statistics, geometry, probability, and calculus. You'll start with simple projects, like a factoring program and a quadratic-equation solver, and then create more complex projects once you've gotten the hang of things.

Along the way, you'll discover new ways to explore math and gain valuable programming skills that you'll use throughout your study of math and computer science. Learn how to:

- Describe your data with statistics, and visualize it with line graphs, bar charts, and scatter plots
- Explore set theory and probability with programs for coin flips, dicing, and other games of chance
- Solve algebra problems using Python's symbolic math functions
- Draw geometric shapes and explore fractals like the Barnsley fern, the Sierpinski triangle, and the Mandelbrot set
- Write programs to find derivatives and integrate functions

Creative coding challenges and applied examples help you see how you can put your new math and coding skills into practice. You'll write an inequality solver, plot gravity's effect on how far a bullet will travel, shuffle a deck of cards, estimate the area of a circle by throwing 100,000 "darts" at a board, explore the relationship between the Fibonacci sequence and the golden ratio, and more.

Whether you're interested in math but have yet to dip into programming or you're a teacher looking to bring programming into the classroom, you'll find that Python makes programming easy and practical. Let Python handle the grunt work while you focus on the math.

### **From reader reviews:**

#### **Renee Chagnon:**

Why don't make it to become your habit? Right now, try to ready your time to do the important action, like looking for your favorite publication and reading a book. Beside you can solve your long lasting problem; you can add your knowledge by the e-book entitled Doing Math with Python: Use Programming to Explore Algebra, Statistics, Calculus, and More!. Try to make the book Doing Math with Python: Use Programming to Explore Algebra, Statistics, Calculus, and More! as your friend. It means that it can to become your friend when you really feel alone and beside those of course make you smarter than before. Yeah, it is very fortunated to suit your needs. The book makes you far more confidence because you can know every little thing by the book. So , we should make new experience in addition to knowledge with this book.

#### **Lisa Mercado:**

Information is provisions for folks to get better life, information today can get by anyone on everywhere. The information can be a information or any news even a concern. What people must be consider whenever those information which is in the former life are challenging be find than now's taking seriously which one would work to believe or which one typically the resource are convinced. If you find the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All of those possibilities will not happen with you if you take Doing Math with Python: Use Programming to Explore Algebra, Statistics, Calculus, and More! as your daily resource information.

#### **Christine Knox:**

A lot of people always spent their own free time to vacation or perhaps go to the outside with them family members or their friend. Did you know? Many a lot of people spent that they free time just watching TV, as well as playing video games all day long. If you wish to try to find a new activity this is look different you can read the book. It is really fun to suit your needs. If you enjoy the book you read you can spent the entire day to reading a book. The book Doing Math with Python: Use Programming to Explore Algebra, Statistics, Calculus, and More! it is extremely good to read. There are a lot of folks that recommended this book. We were holding enjoying reading this book. When you did not have enough space to develop this book you can buy the actual e-book. You can m0ore simply to read this book through your smart phone. The price is not to cover but this book possesses high quality.

#### **David Baker:**

That book can make you to feel relax. This kind of book Doing Math with Python: Use Programming to Explore Algebra, Statistics, Calculus, and More! was colourful and of course has pictures around. As we know that book Doing Math with Python: Use Programming to Explore Algebra, Statistics, Calculus, and More! has many kinds or category. Start from kids until youngsters. For example Naruto or Private eye Conan you can read and think that you are the character on there. Therefore , not at all of book usually are

make you bored, any it offers up you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading in which.
