A Parallel Path Marco Peel

Nasty. Named Nastasha after her Russian grandmother, it was her Spanish grandfather who gave her the nickname. To him it was no more than a dotting diminutive, and the name stuck. She liked it. Probably because her father hated it. Barely 17, she has just finished a difficult school year to start off her vacation with a black eye that suits her mood. But that's only the beginning. Waking up naked next to someone she barely knows after a first night out in Paris of which she can't remember a thing, she realises she's been tricked and treated, and has lost something she can never recover. And it's not just her blasted shoes. Confused, she runs away, drifting through a series of strange events and encounters onto the old pilgrim's path from Arles to Santiago de Compostela, a 1500 kilometre hike. Yet while walking brings peace and helps her forget, she is hounded by dark dreams of a near future, and frightening visions from some distant past. 1348. Fleeing Rome with his father after Cola di Rienzo's revolution, promising freedom and justice for all, collapses in heaps of blood and dust, Dominic is the first to come down with the plague in Genoa. Waking up to find himself alone, he pushes on out of inertia to the Papal Court in Avignon, where he stays on to help out at the infirmary as the shroud of the Black Death catches up. In the wake of the scourge, Dominic feels increasingly lost in a world changed beyond belief. Blaming himself for his father's death, he sets off as soon as he can to Santiago de Compostela, where his mother abandoned him at birth 13 years ago, in the hope of finding out who she was, who he is, and where he belongs. What starts off as a vague distraction for both, becomes a pilgrimage to their very soul, that will change the way they see the world and themselves. Though centuries apart, they share more than their unusual choice to go barefoot. More, in fact, than they may wish to find out...
