Stroke: A Novel

Carlos Ledson Miller

Stroke: A Novel Carlos Ledson Miller

Set on the Texas Gulf Coast, **STROKE** is the story of a young woman's quest to compete in the male-dominated world of professional pool.

Rich in images and accurate in the nuances of the game, Miller captures our attention with a title that at first glance might conjure up images of hypertension. But **STROKE** is aptly named. Pool players know that being "in stroke" is akin to basketball players being "in the zone."

Refreshingly, **STROKE** is not just another pool hustle novel. Sedonia Forbes, raised by a single-parent father who fostered her athletic skills and encouraged her competitive nature, wins the U. S. Amateur Women's Golf Championship and is heralded as an up-and-coming, female Tiger Woods.

But before Sedonia turns professional, she receives two crushing blows. The first is the death of her father, and the second is a severe shoulder injury that precludes her ever playing golf again. These losses bring her life to a standstill.

When the story opens, Sedonia's competitive nature and her need to excel begin to kindle a new fire among the ashes of her heartbreak. Leaving the country-club life behind, she enters the green felt, poolroom jungle.
