**Specialty Imaging: Genitourinary Oncology: Published by Amirsys®** Akram M. Shaaban MBBCh, Todd M. Blodgett MD, Maryam Rezvani MD, David Bauer MD

The first Amirsys publication devoted solely to genitourinary cancers has finally arrived. In **Specialty Imaging: Genitourinary Oncology**, Dr. Akram Shaaban and team skillfully guide clinicians through the imaging appearances, staging, and treatment techniques for cancers of the kidney, bladder, adrenal glands, urethra, testicle, and prostate. The 130 pages of fast-reading, bulleted text are enriched with well over 450 vivid images, each of which identifies and explains clinically significant factors. The recently published Seventh Edition AJCC cancer staging tables are included to aid the staging discussions, providing definitions for TNM and AJCC prognostic groups for all genitourinary cancers. This is a must-have reference for radiologists, oncologists, and others whose work quality depends on an accurate understanding of genitourinary system cancers.
