Frontiers for the American Century: Outer Space, Antarctica, and Cold War Nationalism (Palgrave Studies in the History of Science and Technology) James Spiller

Space and Antarctic exploration were the most dramatic endeavors of the Cold War. Employing the latest science and technology to explore the remaining frontiers, these programs were designed to stimulate an American Century of freedom and prosperity for humankind. However, these programs came to represent distinctive aspects of the ideal U.S. leadership of the 'Free World.' *Frontiers for the American Century: Outer Space, Antarctica, and Cold War Nationalism* by James Spiller explores the cultural politics, nationalism, and history that led these programs to different paths of celestial pioneering and environmental guardianship.
