The Orvis Streamside Guide to Trout Foods and Their Imitations

Tom Rosenbauer

The Orvis Streamside Guide to Trout Foods and Their Imitations Tom Rosenbauer

Every fly fisher would agree that knowing your mayflies from your stoneflies is strongly correlated with a successful day on the water. This knowledge is vital because, as author Tom Rosenbauer notes, trout are shy and careful and can be fussy about what they eat. In addition, they won't hesitate to swim away and leave a meal if they feel threatened.

In *The Orvis Streamside Guide to Trout Foods and Their Imitations*, Rosenbauer explains how and when to use many types of trout foods, including aquatic insects, terrestrial insects, crustaceans, and more. Designed with both the novice and intermediate fly fisher in mind, Rosenbauer teaches readers how to:

- Ambush trout
- Identify types of insects
- Present trout food properly
- Observe what trout are eating
- Use imitation trout foods
- And more

With *The Orvis Streamside Guide to Trout Foods and Their Imitations* at their sides, fly fishermen will be able to tell the difference between mayflies, stoneflies, caddisflies, midges, and a variety of other insects. In addition, they will also know when to use real foods and when to rely on the imitations in their tackle boxes.
