## Sex on the Brain: The Biological Differences Between Men and Women Deborah Blum

Go beyond the headlines and the hype to get the newest findings in the burgeoning field of gender studies. Drawing on disciplines that include evolutionary science, anthropology, animal behavior, neuroscience, psychology, and endocrinology, Deborah Blum explores matters ranging from the link between immunology and sex to male/female gossip styles. The results are intriguing, startling, and often very amusing. For instance, did you know that. . .

? Male testosterone levels drop in happy marriages; scientists speculate that women may use monogamy to control male behavior

? Young female children who are in day-care are apt to be more secure than those kept at home; young male children less so

? Anthropologists classify Western societies as "mildly polygamous"*The Los Angeles Times* has called **Sex on the Brain** "superbly crafted science writing, graced by unusual compassion, wit, and intelligence, that forms an important addition to the literature of gender studies."

The inside or content is usually fantastic as the outside or even cover. Your reading 6th sense will directly direct you to pick up this book.

#### **James Shockley:**

As a university student exactly feel bored in order to reading. If their teacher requested them to go to the library as well as to make summary for some publication, they are complained. Just little students that has reading's heart and soul or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to there but nothing reading very seriously. Any students feel that examining is not important, boring in addition to can't see colorful pics on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Sex on the Brain: The Biological Differences Between Men and Women can make you truly feel more interested to read.
